Study Notification and Contact List

**ONTARIO GOVERNMENT NOTICE
NOTICE OF STUDY COMMENCEMENT
HIGHWAY 410 IMPROVEMENTS
SOUTH OF QUEEN STREET TO NORTH OF BOVAIRD DRIVE, W.O. #17-20005
PRELIMINARY DESIGN & CLASS ENVIRONMENTAL ASSESSMENT STUDY**

THE STUDY

The Ontario Ministry of Transportation (MTO) has retained AECOM Canada Ltd. (AECOM) to undertake a Preliminary Design and Class Environmental Assessment Study for Highway 410 Improvements. The Study limits extend from South of Queen Street to North of Bovaird Drive. The Study includes the consideration of potential improvements along the Highway 410 corridor. Potential improvements may include: the widening of Highway 410 to provide additional mainline capacity, implementation of dedicated High Occupancy Vehicle (HOV) lanes, assessment of bridges, culverts, retaining walls, noise walls etc., along with considerations of upgrades to illumination and traffic signals. The Study Area is located within the City of Brampton and Regional Municipality of Peel, refer to the Study Area map.

THE PROCESS

This Study will follow the approved planning process for a Group 'B' project under the MTO *Class Environmental Assessment for Provincial Transportation Facilities (amended 2000)* (Class EA).

Alternatives will be generated and evaluated based on technical and environmental factors and in consultation with Indigenous communities, public, stakeholders, municipalities and government agencies. A Public Information Centre (PIC) will be held during this Study to provide interested parties with the opportunity to discuss the Study and provide input to the Project Team.

Upon Study completion, a Transportation Environmental Study Report (TESR) will be prepared and made available for a 30-day public and agency comment period.

Notifications advising of the time and location of the PIC and of the availability of the TESR for comment will be published in local newspapers, mailed or e-mailed to those on the Study mailing list, and information will be made available on the Study website.

HOW TO PARTICIPATE

You are encouraged to participate in the Study and to provide comments in writing to the Project Team. If you wish to have your name added to the Study mailing list or have questions about the Study, please visit the Study website or contact the Project Team directly by e-mail or telephone:

There is an opportunity at any time during the Study for interested persons to provide input to the Project Team regarding the Study. Comments are being collected to assist MTO in meeting the requirements of the *Ontario Environmental Assessment Act*. This material will be maintained on file for use during the Study and may be included in project documentation. Information collected will be used in accordance with the *Freedom of Information and Protection of Privacy Act, R.S.O. 1990, c. F.31*. With the exception of personal information, all comments will become part of the public record.

If you have any accessibility requirements in order to participate in this Study, please contact the Project Team as listed above. Renseignements en français sont disponibles par courriel au amy.ingriselli@aecom.com.

**AVIS DU GOUVERNEMENT DE L'ONTARIO
AVIS DE DÉBUT D'ÉTUDE
AMÉLIORATIONS À L'AUTOROUTE 410**

DU SUD DE LA RUE QUEEN AU NORD DE LA RUE BOVAIRD, W.O. N° 17-20005

ÉTUDE DE CONCEPTION PRÉLIMINAIRE ET D'ÉVALUATION ENVIRONNEMENTALE DE PORTÉE GÉNÉRALE

L'ÉTUDE

Le ministère des Transports de l'Ontario (MTO) a retenu les services d'AECOM Canada Ltd. (AECOM) afin d'entreprendre la conception préliminaire et l'évaluation environnementale de portée générale pour les améliorations à l'autoroute 410. Les limites de l'étude s'étendent du sud de la rue Queen au nord de la rue Bovaird. L'étude comprend l'examen des améliorations possibles le long du corridor de l'autoroute 410. Les améliorations

potentielles peuvent comprendre : l'élargissement de l'autoroute 410 pour accroître la capacité des voies principales, la mise en place de voies réservées aux véhicules multioccupants (VMO), l'évaluation des ponts, des ponceaux, des murs de soutènement, des murs antibruit, etc., ainsi que l'examen de la modernisation de l'éclairage et des feux de circulation. La zone d'étude est située dans la ville de Brampton et la municipalité régionale de Peel; reportez-vous à la carte de la zone d'étude.

LE PROCESSUS

Cette étude suivra le processus de planification approuvé pour les projets du groupe « B » dans le cadre de l'*Évaluation environnementale pour les installations provinciales de transport (modifiée en 2000)* du MTO (EE de portée générale).

Des solutions de rechange seront déterminées et évaluées en fonction des facteurs techniques et environnementaux, ainsi qu'en consultation avec les communautés autochtones, les intervenants du public, les municipalités et les organismes gouvernementaux. Un centre d'information sera organisé durant l'étude afin de permettre aux parties intéressées de discuter de l'étude et de faire part de leurs commentaires à l'équipe du projet.

À la fin de cette étude, un rapport d'étude environnementale sur les transports sera préparé et rendu accessible pour une période de commentaires de 30 jours par le public et les organisations.

Les avis concernant l'heure et l'emplacement du centre d'information et l'accessibilité du rapport à des fins de commentaires seront publiés dans les journaux locaux, envoyés par la poste ou envoyés par courriel aux personnes inscrites sur la liste de distribution de l'étude. L'information pourra également être consultée sur le site Web de l'étude.

COMMENT PARTICIPER

Vous êtes encouragés à participer à l'étude et à fournir des commentaires écrits à l'équipe de projet. Si vous souhaitez faire ajouter votre nom à la liste d'envoi du projet ou si vous avez des questions au sujet de l'étude, veuillez visiter le site Web du projet ou prendre contact directement avec l'équipe du projet par courriel ou par téléphone :

Visitez-nous à : www.hwy410queentobovaird.ca

**RE: Notice of Study Commencement - Highway 410 Improvements
South of Queen Street to North of Bovaird Drive, W.O. #17-20005
Preliminary Design and Class Environmental Assessment Study
Ontario Ministry of Transportation**

The Ontario Ministry of Transportation (MTO) has retained AECOM Canada Ltd. (AECOM) to undertake a Preliminary Design and Class Environmental Assessment Study for Highway 410 Improvements. The Study limits extend from South of Queen Street to North of Bovaird Drive. The Study includes the consideration of potential improvements along the corridor. Potential improvements may include: the widening of Highway 410 to provide additional mainline capacity, implementation of dedicated High Occupancy Vehicle (HOV) lanes, assessment of bridges, culverts, retaining walls, noise walls etc., along with considerations of upgrades to illumination and traffic signals. The Study Area is located within the City of Brampton and Regional Municipality of Peel, (refer to the enclosed "Notice of Study Commencement").

The purpose of this letter is to notify your office of Study Commencement.

The enclosed "Notice of Study Commencement" will appear in the following local newspapers:

- Brampton Guardian on Thursday August 11, 2022
- Le Métropolitain on Thursday August 11, 2022

This Study will follow the approved planning process for a Group 'B' project under the MTO *Class Environmental Assessment for Provincial Transportation Facilities (amended 2000)* (Class EA).

Alternatives will be generated and evaluated based on technical and environmental factors and in consultation with Indigenous communities, public stakeholders, municipalities and government agencies. A Public Information Centres (PIC) will be held during this Study to provide interested parties with the opportunity to discuss the Study and provide input to the Project Team.

Upon Study completion, a Transportation Environmental Study Report (TESR) will be prepared and made available for a 30-day public and agency comment period.

Notifications advising of the time and location of the PIC and of the availability of the TESR for comment will be published in local newspapers, mailed or e-mailed to those on the Study mailing list, and information will be made available on the Project Website.

If you wish to obtain additional information about the Study please visit the Project Website at: www.hw410queentobovaird.ca.

There is an opportunity at any time during the Study for interested persons to provide input to the Project Team including comments and information regarding the Study. Comments are being collected to assist MTO with the preliminary design and to meet the requirements of the *Ontario Environmental Assessment Act*. This material will be maintained on file for use during the Study and may be included in project documentation. Information collected will be used in accordance with the *Freedom of Information and Protection of Privacy Act*. With the exception of personal information, all comments will become part of the public record.

If you have any accessibility requirements in order to participate in this Study, please contact one of the Project Team members listed on the enclosed "Notice of Study Commencement".
Renseignements en français sont disponibles par courriel au amy.ingriselli@aecom.com.

If you would like to provide comments, or if you require further information regarding this project, please feel free to contact me by phone at 437-777-0246 or by email at ProjectTeam@hw410queentobovaird.ca. You may also contact the AECOM Project Manager, Tim Sorochinsky by phone at 905-418-1475 or by email at ProjectTeam@hw410queentobovaird.ca.

Dear «Name»:

**RE: Notice of Study Commencement - Highway 410 Improvements
South of Queen Street to North of Bovaird Drive, W.O. #17-20005
Preliminary Design and Class Environmental Assessment Study
Ontario Ministry of Transportation**

The Ontario Ministry of Transportation (MTO) has retained AECOM Canada Ltd. (AECOM) to undertake a Preliminary Design and Class Environmental Assessment (EA) Study for Highway 410 Improvements. The Study limits extend from South of Queen Street to North of Bovaird Drive. The Study includes the consideration of potential improvements along the corridor. Potential improvements may include: the widening of Highway 410 to provide additional mainline capacity, implementation of dedicated High Occupancy Vehicle (HOV) lanes, assessment of bridges, culverts, retaining walls, noise walls etc., along with considerations of upgrades to illumination and traffic signals. The Study Area is located within the City of Brampton and Regional Municipality of Peel (refer to the enclosed "Notice of Study Commencement").

This Study will follow the approved planning process for a Group 'B' project under the MTO *Class Environmental Assessment for Provincial Transportation Facilities (amended 2000)* (Class EA).

Alternatives will be generated and evaluated based on technical and environmental factors and in consultation with Indigenous communities, public stakeholders, municipalities and government agencies. A Public Information Centre (PIC) will be held during this Study to provide interested parties with the opportunity to discuss the Study and provide input to the Project Team. An additional opportunity to review this information will be provided to <<insert name of community here>> concurrent with the PIC.

Upon Study completion, a Transportation Environmental Study Report (TESR) will be prepared and made available for a 30-day public and agency comment period. Indigenous communities will also be provided with the opportunity to comment on the TESR. This information will be also made available on the Project Website at: www.hwy410queentobovaird.ca.

The ministry recognizes that Indigenous partners are prioritizing COVID-19 responses to protect the health and well-being of their communities, and as a result, this may impact their ability to respond to ministry projects. The ministry remains committed to fulfilling its duty to consult requirements and will endeavour to accommodate requests to delay, postpone or suspend consultation discussions at this time.

The purpose of this letter is to notify you of the commencement of this Study, and to inquire if <<insert name of community here>> have an interest in this Study. We also welcome the opportunity to meet with you to discuss this Study. We also invite you to identify any environmental, social, and cultural values your community may wish to identify within the Study area.

As part of this Study, a Stage 1 Archaeological Assessment will be undertaken. The Project Team will also be conducting a natural sciences review of the Study area. Background information relating to natural heritage features will be collected to characterize the vegetation communities, fish and fish habitat, as well as wildlife and wildlife habitat (including Species at Risk). A Fish and Fish Habitat Report and Terrestrial Ecosystems Report will be prepared and will document potential impacts and proposed mitigation measures.

If you wish to obtain additional information about the Study please visit the Project Website at: www.hwy410queentobovaird.ca.

There is an opportunity at any time during the Study for interested persons to provide input to the Project Team including comments and information regarding the Study. Comments are being collected to assist MTO with the preliminary design and to meet the requirements of the *Ontario Environmental Assessment Act*. This material will be maintained on file for use during the Study and may be included in project documentation. Information collected will be used in accordance with the *Freedom of Information and Protection of Privacy Act*. With the exception of personal information, all comments will become part of the public record.

If you have any accessibility requirements in order to participate in this Study, please contact one of the Project Team members listed on the enclosed "Notice of Study Commencement".
Renseignements en français sont disponibles par courriel au amy.ingriselli@aecom.com.

If you would like to provide comments, or if you require further information regarding this project, please feel free to contact me by email at Parshad.Patel@ontario.ca or by phone at 437-777-0246. In addition, if you are interested in meeting as a result of receiving this letter, please contact me to arrange a meeting at your earliest convenience.

Yours truly,
Ontario Ministry of Transportation

Parshad Patel, M. Eng.
Project Manager

cc. C. Barber - MTO, Senior Environmental Planner
L. Currie - MTO, Indigenous Liaison Specialist

Highway 410 Improvements

South of Queen Street to North of Bovaird Drive, W.O. #17-20005

Preliminary Design & Class Environmental Assessment Study

THE STUDY

The Ontario Ministry of Transportation (MTO) has retained AECOM Canada Ltd. (AECOM) to undertake a Preliminary Design and Class Environmental Assessment Study for Highway 410 Improvements. The Study limits extend from South of Queen Street to North of Bovaird Drive. The Study includes the consideration of potential improvements along the Highway 410 corridor. Recommended improvements include the widening of Highway 410 to provide additional mainline capacity including the implementation of dedicated High Occupancy Vehicle (HOV) lanes. The Study also includes an assessment of bridges, culverts, retaining walls and MTO noise walls, along with considerations for upgrades to illumination and traffic signals. The Study Area is located within the City of Brampton and Regional Municipality of Peel, refer to the Study Area map on the right.

THE PROCESS

This Study is following the approved planning process for a Group 'B' project under the MTO *Class Environmental Assessment for Provincial Transportation Facilities (2000)* (Class EA).

Reasonable design alternatives for highway widening and High Occupancy Vehicle lanes have been developed and evaluated leading to the selection of a preliminary Technically Preferred Alternative. The improvements to the corridor aim to ensure the future infrastructure rehabilitation can accommodate the future traffic needs of Highway 410.

Upon study completion, a Transportation Environmental Study Report (TESR) will be prepared and made available for a 30-day public and agency comment period. Notification advising of the availability of the TESR for comment will be published in local newspapers, mailed or e-mailed to those on the project mailing list, and information will be made available on the Study website.

PUBLIC INFORMATION CENTRE (PIC)

A PIC is being held in-person at Professor's Lake Recreation Centre – Auditorium. The purpose of the PIC is to receive feedback on the preliminary design recommendations and potential mitigation strategies to minimize environmental and community impacts. The Project Team encourages you to attend and welcomes your input. The PIC will be held as follows:

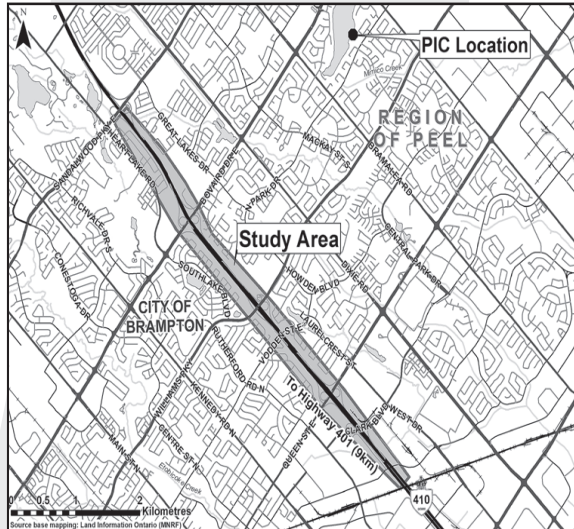

Date: May 29, 2024

Time: 4:00 pm to 8:00 pm

Location: Professor's Lake Recreation Center – Auditorium
1660 North Park Drive, Brampton, Ontario, L6S 5S8

COMMENTS

PIC materials will also be available online for a public comment period (ending **July 2, 2024**). We encourage you to review the materials and submit your comments to the Project Team, or reach out to the Project Team to obtain additional information and/or be placed on the project mailing list. Please contact the Project Team via one of the methods on the right:

PIC Comment Form can be found online on the Study Website at www.hwy410queentobovaird.ca/consultation

Avis du gouvernement de l'Ontario

Avis de centre d'information

Améliorations à l'autoroute 410

Du sud de Queen Street au nord de Bovaird Drive, W.O. n° 17-20005

Étude de conception préliminaire et d'évaluation environnementale de portée générale

L'ÉTUDE

Le ministère des Transports de l'Ontario (MTO) a retenu les services d'AECOM Canada Ltd. (AECOM) afin d'entreprendre la conception préliminaire et l'évaluation environnementale de portée générale pour les améliorations à l'autoroute 410. Les limites de l'étude s'étendent du sud de la rue Queen au nord de la rue Bovaird. L'étude comprend l'examen des améliorations possibles le long du corridor de l'autoroute 410. Les améliorations recommandées comprennent l'élargissement de l'autoroute 410 pour accroître la capacité des voies principales, notamment la mise en place de voies réservées aux véhicules multioccupants (VMO). L'étude inclut également une évaluation des ponts, des ponceaux, des murs de soutènement et des murs antibruit du MTO, etc., ainsi que l'examen de la modernisation de l'éclairage et des feux de circulation. La zone d'étude est située dans la Ville de Brampton et la municipalité régionale de Peel; reportez-vous à la carte de la zone d'étude à droite.

LE PROCESSUS

Cette étude suit le processus de planification approuvé pour les projets du groupe « B » dans le cadre de l'*Évaluation environnementale de portée générale pour les routes provinciales (2000)* du MTO (EE de portée générale).

Des solutions de rechange raisonnables pour l'élargissement de l'autoroute et les voies réservées aux véhicules multioccupants ont été conçues et évaluées, menant à la sélection d'une solution privilégiée provisoire. Les améliorations apportées au corridor visent à assurer que la remise en état future de l'infrastructure pourra répondre aux besoins futurs de l'autoroute 410 en matière de circulation.

À la fin de l'étude, un rapport d'étude environnementale sur les transports (RÉET) sera préparé et rendu accessible pour une période de commentaires de 30 jours par le public et les organisations. Un avis concernant l'accessibilité du RÉET à des fins de commentaires sera publié dans les journaux locaux, envoyés par la poste ou envoyés par courriel aux personnes inscrites sur la liste de distribution du projet. L'information pourra également être consultée sur le site Web de l'étude.

CENTRE D'INFORMATION (CI)

Un centre d'information sera tenu en personne à l'auditorium du Centre de loisirs de Professor's Lake. Le but du centre est de recevoir des commentaires sur les recommandations en matière de conception préliminaire et les stratégies d'atténuation potentielles permettant de minimiser les impacts environnementaux et communautaires. L'équipe du projet vous encourage à participer et souhaite entendre votre opinion. Le centre d'information aura lieu :

Date : 29 mai 2024

Heure : De 16 h à 20 h

**Lieu : Auditorium du Centre de loisirs de Professor's Lake
1660, rue North Park, Brampton (Ontario) L6S 5S8**

COMMENTAIRES

Les documents du centre d'information seront également mis à disposition du public en ligne pendant une période de commentaires (qui prendra fin le **2 juillet 2024**). Nous vous encourageons à examiner les documents et à soumettre vos commentaires à l'équipe de projet, ou à

prendre contact avec l'équipe de projet pour obtenir des renseignements supplémentaires ou être inscrit sur la liste de distribution du projet. Veuillez prendre contact avec l'équipe du projet de l'une des façons suivantes :

Vous trouverez le **formulaire des commentaires sur le centre d'information** sur le site Web de l'étude à <https://hwy410queentobovaird.ca/fr-consultation/>

Dear «Name»:

**RE: Notice of Public Information Centre - Highway 410 Improvements
South of Queen Street to North of Bovaird Drive, W.O. #17-20005
Preliminary Design and Class Environmental Assessment Study
Ontario Ministry of Transportation**

The Ontario Ministry of Transportation (MTO) has retained AECOM Canada Ltd. (AECOM) to undertake a Preliminary Design and Class Environmental Assessment Study for Highway 410 Improvements. The Study limits extend from South of Queen Street to North of Bovaird Drive. The Study includes the consideration of potential improvements along the Highway 410 corridor. Recommended improvements include the widening of Highway 410 to provide additional mainline capacity including the implementation of dedicated High Occupancy Vehicle (HOV) lanes. The Study also includes an assessment of bridges, culverts, retaining walls and MTO noise walls, along with considerations for upgrades to illumination and traffic signals. The Study Area is located within the City of Brampton and Regional Municipality of Peel (refer to the enclosed "Notice of Public Information Centre" for the key plan).

This Study is following the approved planning process for a Group 'B' project under the MTO *Class Environmental Assessment for Provincial Transportation Facilities (2000)* (Class EA).

A key part of the planning process involves consultation with Indigenous Communities, local landowners, government agencies and other interested parties that could be impacted by the project. A Public Information Centre (PIC) is being held in-person at Professor's Lake Recreation Centre – Auditorium on May 30, 2024, to provide interested parties an opportunity to learn about and comment on the preliminary design recommendations and potential mitigation strategies to minimize environmental and community impacts. It will also provide an overview of the planning process and studies completed.

The purpose of this letter is to notify your office of the PIC announcement. The PIC will be held as follows:

Date: May 29, 2024
Time: 4:00 pm to 8:00 pm
Location: Professor's Lake Recreation Center – Auditorium,
1660 North Park Drive, Brampton, Ontario, L6S 5S8

PIC materials will also be available online for a public comment period (ending July 2, 2024).

The enclosed "Notice of Public Information Centre" will appear in the following local newspapers, be distributed to the project contact list and will be made available on the Project Website:

- Brampton Guardian (online) from May 16 to 29, 2024
- Le Métropolitain on May 16, 2024

A PIC Comment Form and further information about the Study can be found online on the Study Website at www.hwy410queentobovaird.ca/consultation.

If you have any accessibility requirements in order to participate in this Study, please contact one of the Project Team members listed on the enclosed "Notice of Public Information Centre".

If you would like to provide comments, or if you require further information regarding this project, please feel free to contact me by email at Parshad.Patel@ontario.ca or by phone at 437-777-0246.

Yours truly,

Ontario Ministry of Transportation

Parshad Patel, M. Eng.

Dear «Name»:

**RE: Notice of Public Information Centre - Highway 410 Improvements
South of Queen Street to North of Bovaird Drive, W.O. #17-20005
Preliminary Design and Class Environmental Assessment Study
Ontario Ministry of Transportation**

The Ontario Ministry of Transportation (MTO) has retained AECOM Canada Ltd. (AECOM) to undertake a Preliminary Design and Class Environmental Assessment Study for Highway 410 Improvements. The Study limits extend from South of Queen Street to North of Bovaird Drive. The Study includes the consideration of potential improvements along the Highway 410 corridor. Recommended improvements include the widening of Highway 410 to provide additional mainline capacity including the implementation of dedicated High Occupancy Vehicle (HOV) lanes. The Study also includes an assessment of bridges, culverts, retaining walls and MTO noise walls, along with considerations for upgrades to illumination and traffic signals. The Study Area is located within the City of Brampton and Regional Municipality of Peel (refer to the enclosed "Notice of Public Information Centre" for the key plan).

This Study is following the approved planning process for a Group 'B' project under the MTO *Class Environmental Assessment for Provincial Transportation Facilities (2000)* (Class EA).

The purpose of this letter is to inform you of a **Public Information Centre (PIC)** for this project. Your community is invited to attend a preview session being held for members of interested Indigenous communities prior to the PIC. The preview session will be an informal drop-in centre with Project Team representatives available to answer questions and receive comments on the preliminary design recommendations and potential mitigation strategies to minimize environmental impacts. This session will be held on:

Date: May 29, 2024
Time: 3:00 pm to 4:00 pm
Location: Professor's Lake Recreation Center – Auditorium,
1660 North Park Drive, Brampton, Ontario, L6S 5S8

PIC materials will also be available online on the project website at www.hwy410queentobovaird.ca/consultation.

Upon Study completion, a Transportation Environmental Study Report (TESR) will be prepared and made available for a 30-day public and agency comment period. Indigenous communities will also be provided with the opportunity to comment on the TESR. This information will also be made available on the Project Website at: www.hwy410queentobovaird.ca.

As part of this Study, a Stage 1 Archaeological Assessment and a natural sciences review of the Study Area has been undertaken. Background information relating to natural heritage features has been collected to characterize the vegetation communities, fish and fish habitat, as well as wildlife and wildlife habitat (including Species at Risk). A Fish and Fish Habitat Report and Terrestrial Ecosystems Report will be prepared and will document potential impacts and proposed mitigation measures. These reports can be provided to you/your community digitally once complete, upon request.

If you would like to provide comments, have any accessibility requirements in order to participate in this Study or if you require further information regarding this Study, please feel free to contact me by email at Parshad.Patel@ontario.ca or by phone at 437-777-0246. In addition, if you are interested in meeting as a result of receiving this letter, please contact me to arrange a meeting at your earliest convenience.

Yours truly,

«Address»

Dear «Name»:

**RE: Notice of Study Commencement - Highway 410 Improvements
South of Queen Street to North of Bovaird Drive, W.O. #17-20005
Preliminary Design and Class Environmental Assessment Study
Ontario Ministry of Transportation**

The Ontario Ministry of Transportation (MTO) has retained AECOM Canada Ltd. (AECOM) to undertake a Preliminary Design and Class Environmental Assessment Study for Highway 410 Improvements. The Study limits extend from South of Queen Street to North of Bovaird Drive. The Study includes the consideration of potential improvements along the Highway 410 corridor. Potential improvements may include: the widening of Highway 410 to provide additional mainline capacity, implementation of dedicated High Occupancy Vehicle (HOV) lanes, assessment of bridges, culverts, retaining walls, noise walls etc., along with considerations of upgrades to illumination and traffic signals. The Study Area is located within the City of Brampton and Regional Municipality of Peel, (refer to the enclosed "Notice of Study Commencement").

The purpose of this letter is to notify you of the commencement of this Preliminary Design and Class EA Study. If you would like to provide comments, or if you require further information regarding this Study, please visit the project website at www.hw410queentobovaird.ca or contact one of the Project Team members as identified on the enclosed notice.

This Study will follow the approved planning process for a Group 'B' project under the MTO *Class Environmental Assessment for Provincial Transportation Facilities (amended 2000)* (Class EA).

Alternatives will be generated and evaluated based on technical and environmental factors and in consultation with Indigenous communities, public, stakeholders, municipalities and government agencies. A Public Information Centre (PIC) will be held during this Study to provide interested parties with the opportunity to discuss the Study and provide input to the Project Team.

Upon Study completion, a Transportation Environmental Study Report (TESR) will be prepared and made available for a 30-day public and agency comment period.

Notifications advising of the time and location of the PIC and of the availability of the TERS for comment will be published in local newspapers, mailed or e-mailed to those on the Study mailing list, and information will be made available on the Project Website.

If you wish to obtain additional information about the Study please visit the Project Website at: www.hwy410queentobovaird.ca.

There is an opportunity at any time during the Study for interested persons to provide input to the Project Team including comments and information regarding the Study. Comments are being collected to assist MTO with the preliminary design and to meet the requirements of the *Ontario Environmental Assessment Act*. This material will be maintained on file for use during the Study and may be included in project documentation. Information collected will be used in accordance with the *Freedom of Information and Protection of Privacy Act*. With the exception of personal information, all comments will become part of the public record.

If you have any accessibility requirements in order to participate in this Study, please contact one of the Project Team members listed on the enclosed "Notice of Study Commencement".

If you would like to provide comments, or if you require further information regarding this project, please feel free to contact me by phone at 905-418-1475 or email at ProjectTeam@hwy410queentobovaird.ca. You may also contact the MTO Project Manager, Parshad Patel, by phone at 437-777-0246 or by email at ProjectTeam@hwy410queentobovaird.ca.

Sincerely,
AECOM Canada Ltd.
